3. Instruct the repair facility that they must obtain an authorization number from the **Administrator** prior to proceeding with repairs. The amount authorized is the maximum that will be paid. Any additional amounts need prior approval.
4. In some cases, **You** may be required to authorize the repair facility to inspect or tear down **Your Unit** to determine the cause and cost of the repair. **You** will be responsible for these charges if the **Failure** is not covered by this **Contract**. The **Administrator** reserves the right to require an inspection of **Your Unit** prior to any repair being performed. We reserve the right to move Your covered Unit to another repair facility.

Repair Facility Guidelines for Claims Handling

Follow these steps when handling a claim:

1. Advise the **Contract** holder that evaluation of a **Failure** does not mean that the repair is covered under this **Contract**. All covered repairs must receive prior authorization from the **Administrator**.
2. Have the **Contract** holder authorize the inspection/tear down of the Unit to determine the cause of **Failure** and the cost to repair. Save all components, including fluids and filters, should the **Administrator** require an outside inspection. Notify the **Contract** holder that the cost of tear down will not be paid if it is determined that the **Failure** is not covered under this **Contract**.
3. Determine the cause of **Failure**, correction required and cost of the repair(s).
4. Contact the **Administrator's** Claims Department at **800-526-0929** to get authorization to proceed with the claim. Be prepared with the following information when placing the call:
 - a. Customer's Name and **Contract** Number.
 - b. Cause of **Failure** and recommended correction.
 - c. Cost of repair(s).
5. A Claims Advisor will verify **Coverage** and do one of the following:

 - b. Require Additional Evaluation, Inspection or Tear Down- The **Administrator** may require an inspection prior to repair being completed. If a tear down is required to determine the cause of **Failure**, the **Contract** holder must authorize same. Notify the **Contract** holder that if the repair is not covered, then the **Contract** holder will be responsible for cost of the tear down. The repair facility should save all components requiring inspection, including fluids and filters. The Claims Advisor will arrange for the inspection. If the inspection is not made within forty eight (48) hours, contact the Claims Advisor.
 - c. Deny the claim and provide the reason for the denial.
6. Review the **Administrator's** findings with the **Contract** holder as well as what will be covered by the **Contract** and what portion of the repair(s), if any, will not be covered.
7. Obtain the **Contract** holder's authorization to complete repair(s). All repair orders must have the **Contract** holder's signature to qualify for payment.
8. Submit the repair order(s) that must include the **Contract** number, authorization number and authorized amount to **Administrator** within thirty (30) days to the following address:
